github.com/anniedaniel
@anieldaniel

SKILLS

Django, Python, HTML, CSS, JavaScript, PostgreSQL, Adobe Illustrator, Knitting, Baking, Running

EXPERIENCE

The Texas Tribune

Austin, T.X.

Developer/Designer

December 2014 - Present

Works with reporters, designers and editors to pitch and build graphics, feature packages and data apps. Maintains and updates large data apps by performing technical maintenance and requesting and updating data sets. Directs data visuals fellowship program recruiting, selecting, onboarding, training and mentoring fellows.

The Washington Post

Washington D.C.

Graphics Intern

June 2014-August 2014

Developed and designed graphics for both web and print. Helped reporters gather, organize and clean data used in graphics and data visualizations. Worked across the newsroom to create immersive and visually appealing graphics and interactives.

Caktus Group

Carrboro, N.C.

Front-end Developer Intern

January 2014-April 2014

Worked collaboratively to create Django-based web apps for clients in addition to in-house projects. Participated in front-end development for Duckling, a web app to help conference attendees find and create activities and outings to attend with other conference goers.

Reese News Lab Summer Startup Program

Chapel Hill, N.C.

Intern/Lead Developer

May 2013-August 2013

Spent twelve weeks creating a business plan, marketing plan and prototype for Capitol Hound, an audio archiving and alert system for the North Carolina General Assembly. I collaborated with a team of three to create a viable, feasible and desirable product to then pitch to a group of area professionals.

EDUCATION

University of North Carolina at Chapel Hill

B.A. in Journalism and Mass Communication, specialization in Interactive Multimedia

Second major in Political Science
